

DAY 1

My liner looks swollen, too dark and exaggerated.

DAY 2-4

The swelling is going away and each day my liner is getting softer in color.

DAY 5-7

My liner looks too light and looks like it is disappearing!

DAY 8-14

The color continues to settle in and becomes darker in color again.

AFTER TOUCH UP

After having two full sessions my liner has beautiful color!

liner after care instructions

Thank you for trusting an IZORA artist with enhancing your eyes. Your final healed results after both sessions lasts 2-4 years on average. Please carefully read and follow instructions provided below.

FOLLOW THESE INSTRUCTIONS FOR 7 DAYS:

- Apply healing balm 2-3 times per day with a Q-tip, being sure to work the product into the lash line.
- One time per day, take a damp Q-tip to cleanse lash line.
- Avoid wearing eye makeup including mascara for a week.
- It is recommended to get a new bottle of mascara after liner service.
- Avoid picking or scratching at liner if slight scabbing occurs.
- Avoid exposure to direct sunlight.
- Avoid touching the area with fingers.
